Dr. Karoly MEY

Reference: HULL 6058, 16 November 1956 (H 12735) F. "WA II"

1. There has been little information acquired on MEY since [] contact with him. According to available information in GOC files, MEY hired himself and his group out to CIC, Austria circa July 1948 (and was terminated by them in September 1948); contacted the French IS circa November 1948; and allegedly collaborated with the Italian Military Intelligence in 1949. We were queried on him in 1954 by both the BfV and CIC, the reasons for which are unknown. He appears to be an intelligence peddler and as [] so aptly put it in MGLA 595 of 13 October 1949 MEY "is a dreamer to an extreme, an anti-Communist idealist to the point of fanaticism (or Nazism), a security risk to a most dangerous degree, a man of many words but few, often foolish, actions, of great ideas and ambitions but little practicable application, of much inspiration but slight perspiration. He is a fire that sputters but never really flames, a light that glimmers but never really shines, a second (perhaps first) rate soldier but a fourth, at best a third rate intelligence operative."

2. We are forwarding a photocopy of WNA 4498, 30 June 1954, which may give some information in addition to that which can be provided by []

3. It is suggested that UTILITY be informed that it is not possible, from information in Frankfurt files, to verify MEY's present activities; nor to identify his sponsor.
